Sheriff:

MACK STURBLEFIELD.

to transfer the Panama organi-
zation to Alaska for railroad con-
struction, as the work is differ-
ent and the machinery of differ-
ent character. The states suffer-
ing greatest are Illinois, Missou-
ri, Arkansas, Kentucky, Tenne-
see, Mississippi and Louisiana.

If the senators and represen-
tatives will take up this matter
they can no doubt get the en-
dorsement of the National Drain-
age Congress, which convenes in
New Orleans this week, which
delegates will have an opportuni-
ty to realize the importance of
the work which they have under-
taken to put through.

Through the co-operation of
the government and railroad en-
gineers who are now on the
ground endeavoring to check the
destructive work of this over-
flow, they could quickly reach
plans that would enable large
forces of men and machinery to
commence operations at an early
date, and so strengthen the
weaker places that by next flood
season they will remove any dan-
ger from overflow source. - New
York American.

RAILROAD TRESPASSERS.

The Frisco has furnished us
with a statement of trespassers
killed and injured in the United
States and Great Britain and Ire-
land, for the years 1901-1910 in-
clusive, which is as follows:

UNITED STATES.		
Year	Killed	Injured
1901	4625	4858
1902	4103	4854
1903	5000	5079
1904	5105	5194
1905	4805	5251
1906	5381	5927
1907	5612	5312
1908	5189	5756
1909	4944	5759
1910	4625	5237
Total	50025	53427

GREAT BRITAIN AND IRELAND.

Year	Killed	Injured
1901	426	171
1902	421	133
1903	442	144
1904	425	132
1905	439	113
1906	455	106
1907	447	133
1908	479	118
1909	459	133
1910	442	136
Total	4435	1419

In the United States there are
14 trespassers killed and 14 tres-
passers injured every 24 hours -
over one casualty every hour.

In the United Kingdom of
Great Britain & Ireland, there
are only 1 killed and 1 injured
every 24 hours.

Of the 103,452 trespassers killed
and injured in the last ten
years, 13,000 were under the age
of 14 years, 20,000 between the
ages of 14 and 21. In other words
there have been enough minors
killed and injured in the past ten
years in the United States to
more than make a mile post for
every mile traveled in a trip
around the world.

In 1911 there were 5284 tres-
passers killed and 5614 trespass-
ers injured in the United States.

The great difference shown be-
tween the United States and
Great Britain and Ireland is due
to the proper laws and the en-
forcement of the laws to prevent
people from trespassing on the

railroads, and every state and
city in the U. S. should take no-
tice of this fact and pass such
laws as would practically elimi-
nate trespassing on railroads.

THE R. R. AGENTS TO HELP.

Industrial Commissioner
Frank Anderson of the Frisco
has issued a circular to all of the
agents of that company appoint-
ing them industrial agents with
authority to represent the com-
pany in all matters dealing with
the industrial and general busi-
ness development of the towns
and cities in which they are lo-
cated.

In his circular Mr. Anderson
brings out the point that contin-
ued co-operation between the far-
mer, the city man and the rail-
road is absolutely essential to in-
dustrial development, each being
dependent upon the other.

It is believed by these appoint-
ments that many movements
leading to the development of
towns and territories will be ex-
pedited, inasmuch as the agent
will now have the authority to
deal with the city and farm or-
ganizations upon all matters per-
taining to industrial and busi-
ness growth of the territory in
which he is stationed.

The agent is posted upon the
conditions and needs of the terri-
tory in which he resides and by
the additional authority much
useless "red tape" and corres-
pondence will be eliminated, and
the farmers' organizations and
commercial associations can deal
directly with him as they would
with the general officer of the
company.

Under these conditions it is ex-
pected that the Frisco agents
will become factors in the up-
building of the communities in
which they reside, and will keep
constantly in touch with the
commercial or farmers' organi-
zations which have under consid-
eration propositions for the de-
velopment and up-building of the
territory, and that these organi-
zations will also keep constantly
in touch with the agent.

There has been considerable
discussion among some of the
business men and the clerks
about closing all the stores in
town at 7:00 o'clock p. m., and
because every store does not
drive all the customers out of his
house and slam the door in their
face promptly at that hour, all
are threatening to remain open.
There has even been talk of the
clerks forming a union and so-
liciting the aid of the union rail-
road men in boycotting the open
stores, and of prosecuting the
merchant who worked a clerk
over time, and one railroader
who never spent a penny with
the paper in his life, told us that
we had seriously injured ourself
in opposing the threatened boy-
cott. Inasmuch as we are a
law abiding citizen and the laws
of our country condemn com-
bines and boycotts, we cannot be
intimidated by any injury that
might be done us, and we will
still be found on the side of the
people. We think that 8:00 o'-
clock would be better for a clos-
ing hour, as in that case the va-
rious laborers who work until 6:00
o'clock would have time to do a
little shopping and prepare for
the next day, while the farmer,
instead of stopping his plows
and teams from their day's work
to do a little necessary buying,
could come to town and be ac-
commodated. But we never
think about ending our labors
earlier than 9:00 o'clock, and
then find it hard to make a living,
because country papers have no
union or combine to put prices
up, and while WE get the same
price today as 20 years ago, we
pay a higher price for everything,
caused by shorter hours of pro-
duction, which increases the
cost of the article produced, and
by the combines that fix and con-
trol prices and limit production.
We are in favor of unions in their
true meaning, but not for the de-
struction of business or property
nor to deny any man the right
to labor nor to abridge his right
to liberty and the pursuit of hap-
piness.

If you don't see it in the Herald it
is because you did not tell us. Call for a bottle of Tip Top, Lemp
special brew.
